

Melissa Zandman

FULL-STACK SOFTWARE ENGINEER

SUMMARY

Originally from Mexico, I moved to California in 2018. Soon after, I decided to leave behind my industrial engineering career for software engineering—and I'm excited to bring my coding and design skills to your team!

EDUCATION

SWE FELLOWSHIP
HACKBRIGHT ACADEMY
San Francisco, 2019

INDUSTRIAL ENGINEERING
INSTITUTO TECNOLÓGICO
DE CIUDAD MADERO
Mexico, 2008-2012

WORK EXPERIENCE

SUPPLY CHAIN NEW PRODUCT FORECAST ANALYST BENEFIT COSMETICS, SAN FRANCISCO — 2019

- Prepared forecasting template and collected new product and collateral forecasts from global markets; worked with internal teams to review, analyze and validate forecasts.
- Owner of the 'request for change' process, collecting requests and working with cross-functional team to provide feedback.
- Updated monthly forecast accuracy report for every market for new product launches.
- Coordinated with markets to ensure consumption of non-sellable items according to plan.

BUDGET FORECAST ANALYST ENEL GREEN POWER, MEXICO CITY — 2016-17

- Supervised and provided operational support for every project.
- Coordinated with heads of operation at production sites.
- Prepared annual \$14M OpEx and \$5M CapEx budgets.
- Drafted quarterly cashflow statements.
- Saved \$2M in CapEx by monitoring and improving maintenance process.
- Modeled energy production forecast in Excel.
